

JOSEPH H. CHOATE DIES SUDDENLY

Former Ambassador to England Had Been Ill Only Since Monday Morning

ENTERTAINED BALFOUR

Deceased Took Active Part in Entertainment of British and French Missions

HEART DISEASE CAUSE

NEW YORK, May 14.—Joseph H. Choate, former United States ambassador to Great Britain, died at 11:30 o'clock tonight at his home in this city.

Mr. Choate had been ill only since this morning. He had taken a very active part in the entertainment in this city of the British and French war missions and attended services at the cathedral of St. John The Divine with foreign Minister Balfour yesterday morning.

Mr. Choate was referred to by Mayor Mitchell at one of the entertainments in honor of the war missions as the "foremost citizen of New York."

Mr. Choate was taken suddenly ill shortly before 11 o'clock and was assisted to his bedroom and his personal physician Dr. W. G. Draper was called. But Mr. Choate died before he arrived.

With him at the time of his death were members of his family.

Dr. Draper announced that death was due to heart disease.

Remarkable Octogenarian

Mr. Choate was 85 years old, a life-time during which he was one of the most distinguished practitioners of law in the United States, ambassador to England with signal success, a speaker applauded on innumerable public occasions, and finally a remarkable octogenarian.

He came from an old New England family, noted for strength of character and mental vigor. His father was a cousin of the famous Rufus Choate. He was graduated from Harvard in 1852, a college mate of Phillips Brooks. He established himself in New York in 1856 soon after finishing his law studies, and as a member of the firm of Evans, Southmayd and Choate he rose to leadership of the New York bar.

He appeared in all the celebrated cases. It was said a case was not a case unless Choate appeared in it—where his fluency and wit and his searching cross-examination brought him considerable success. He figured in the prosecution of "Boss" Tweed and his followers who looted the New York City treasury; he so successfully defended General Fitz-John Porter, that by reversal of the court martial that officer was reinstated; he appeared in the Tilden case, the contest over Commodore Vanderbilt's millions, and the Chinese exclusion case, arguing against the validity of the act. These are but a few of the famous litigations in which he figured, his presence invariably making any case "an intellectual treat for the public, and professional education for junior members of the bar."

His professional income during the height of his career was believed to be the largest of any practitioner in the American courts, though he may occasionally have been surpassed by some of the huge fees paid for special services by some of the great corporations. He won his way through a combination of good humor which gave him the power to hold the attention of the juries in the dull cases, and legal skill.

Had Daring to Rebuke Judge.

It is on record that, during his younger days, he had the daring to rebuke a judge, who had turned to converse with someone behind him while Choate was addressing the court. Choate stopped short in his address. The judge remarked the silence, and as his Honor turned to face the room the lawyer began anew.

"Your Honor, I shall need all the time allotted me for summing up and I shall need your Honor's undivided attention."

"And you shall have it," the Court apologized.

Mr. Choate was a Republican but never held public office, beyond a brief term as member of a State Constitutional Convention, when he was invited by President McKinley in 1899 to go to London as the American ambassador. At a farewell dinner at the Union League Club, Mr. Choate remarked upon his inexperience in political or diplomatic life. "I shall rely," he said, "upon a happy temperament."

After his six years in England he was lauded on both sides of the Atlantic for the remarkable success he had had in strengthening the ties between the English speaking peoples. His range of sociability made him known as ambassador to the people as well as to the Court. Numberless times he appeared as a lecturer.

MAY AMEND POSTAL SECTION OF TAX BILL

Opponents of Increased Rates Show Strength

Attack Brings First Deflection from Ranks of Ways and Means Committee—General Debate in the House Will Close Today.

Washington, May 14.—Opponents of the ways and means committee's proposal to greatly increase the postal rates on newspapers and magazines showed such a strength during debate on the war tax bill today that it appeared likely the postal section of the measure would be one of the few materially modified before passage. The attack brought the first deflection from the ranks of committee itself, which had approved the bill unanimously and whose members of both parties have consistently urged its passage unamended. Just before adjournment Representative Sloan, a Republican committee man, told the house that while he would stand behind every other provision in the measure, he could not support a postal increase amounting to a "punitive expedition against newspapers and magazines."

Representatives Madden and McCormick of Illinois, and Meeker of Missouri, Republicans and Moon of Tennessee, Democrat, and chairman of postal committee, joined in the attack, which proceeded while a large delegation of publishers was telling the senate finance committee that enactment of the proposed increases would force many publications out of business. General debate in the house will close at 4 o'clock tomorrow and the bill probably will be brought to a final vote before the end of the week. The committee hopes to put through most of its proposals without important amendment, for the opposition has scattered its fire against many individual sections and has developed a concerted attack on only a few of them. When the measure goes over to the senate, however, many changes are expected.

Representative Longworth, Republican, made a long defense of the bill today for the committee, reiterating that while there were some inequities passage was necessary to give the needed war revenue.

It was predicted that the enactment of the proposed postal increases would mean an end of National Circulation for daily papers.

Representative McCormick suggested that the whole schedule should be rewritten so that the levies would fall on publications in proportion to their incomes.

Representative McCormick also criticized the income tax section of the bill and predicted that the measure as a whole would work immeasurable harm to industry.

NEWS ADDS GREATLY TO APPREHENSION

Impression Grows in Washington That Fight of Russ Democracy Might Be More Serious Than Conditions Indicate.

Washington, May 14.—News of the overthrow of two dominating military figures in the Russian capital added greatly today to the apprehension felt here for the Democratic movements to which the encouragement and moral support of this government soon is to be carried by a mission of distinguished Americans.

Official reports added nothing to the brief press despatches indicating that both the minister of war, General Guchoff, and the commander of the Petrograd garrison, General Korniloff, had been forced out of office by friction among high officials of the provisional government. The general impression grew however, that the plight of the new Democracy beset by ambitious partisans of the old regime and by the intrigue of German agents, might be much more serious than surface conditions have revealed.

Also the American mission which received its final instructions from President Wilson today will take pains not to interfere unduly in Russia's internal affairs, officials have made no secret of their hope that one of the results of the visit will be to strengthen the position of the new democratic government. Coupled with this is the expectation that the moral influence of the mission will go farther to offset machinations for a separate peace between Germany and Russia.

CALL OFF LITTLE 19 ATHLETIC MEET

PEORIA, Ill., May 14.—The annual intercollegiate athletic meet of the Little Nineteen College conference of Illinois, scheduled to take place here May 24 and 25 was tonight called off by the athletic board of Bradley Institute. The action of a majority of the colleges in calling off athletics until after the war was the cause of the suspension of the meet. Invitation golf and tennis meets may replace the track events.

LAKE STEAMERS COLLIDE; SINK

Sault Ste. Marie, Mich., May 14.—The steamer Pateco, Mitchell, downbound with ore, collided with the freighter Saxonia, upbound, at the mouth of St. Mary's River, at midnight last night. Both steamers sank in 40 feet of water. The crews were saved.

THIRTY ONE HUNDRED PIGEONS RACE

Chicago, May 14.—Thirty one hundred pigeons participating in an 18 mile race from DeWitt, Iowa to Chicago today, covered the distance in 3:52. The winning entry flew at a rate of 1129 yards per minute.

SENATORS DENOUNCE FOOD SPECULATION

Debate Shows Sentiment To Stop Gambling in Necessities

DEFEAT AMENDMENT

Senator After Senator Scores Men Who Have Manipulated Grain Prices

WANT FOOD CONTROLLER

WASHINGTON, May 14.—Speculation in food supplies was vehemently denounced today on the floor of the senate and in a remarkable debate there was shown plainly an overwhelming sentiment for putting a stop to gambling in the necessities of life.

Defeat Thomas Amendment.

An amendment to the espionage bill proposed by Senator Thomas of Colorado to suspend during the war all exchanges, boards of trade and chambers of commerce that permit speculation in foodstuffs, was beaten only because it was thought the provision had no place in the bill and that it should be offered in connection with control legislation pending in congress. Senator after senator scored the men who have manipulated grain prices, and the terms "pirates" and "robbers" were freely used. A few objected however, on the ground that legitimate commerce might be choked by stopping all the dealings in futures.

The rapid rise in grain prices on the Chicago Exchange started by the agriculture departments forecast of an unusually light winter wheat yield has caused the administration to redouble its efforts in behalf of food control legislation already introduced in both houses of congress.

Gore Wants Controller.

The measure pending were supplemented today by a resolution introduced by Senator Gore, chairman of the agriculture committee, calling for appointment by the president of a controller general of supplies. There have been increasing indications since the return of Herbert C. Hoover with food reports from abroad that the administration intends to centralize control of the food situation in one man.

Under the Gore resolution the food controller would be empowered to act with the allied governments in an international agreement for control of food supplies. His control would extend to fuel and to other necessities of life.

The officer would be created for the duration of the war and for nine months after the conclusion of peace. Conferring on a food controller powers to deal directly with the allies in the exchange of supplies, proposed in the Gore resolution fits directly into the government's plan for a centralized buying arrangement under an international commission.

Newton Explains Plans.

Maximum price fixing plans as explained today by Secretary Houston do not contemplate a maximum price on staples generally, but application of the principle only where it appears a food corner is in sight. In this manner it is believed manipulation could be controlled in an effective manner. The department believes it will be possible when the food control bills are passed to stop all food speculation for profit and still leave the way open for the buying of legitimate futures.

TO FINISH PROBE IN COOK COUNTY THIS WEEK

CHICAGO, May 14.—Investigation of grain elevators and warehouses in Cook county, undertaken at the request of Governor Lowden in the inquiry of food speculation, will be finished this week and will then be taken up at Peoria, East St. Louis and Cairo. Chief State Fire Marshal Bennett who is conducting the investigation said today he began the inquiry four weeks ago with a force of thirty men from the state fire marshals office and six from the fire bureau prevention bureau.

GOVERNOR NAMES IOWA STATE TREASURER

DES MOINES, Ia., May 14.—Governor W. L. Harding today appointed E. H. Hoyt, banker and former state senator of Manchester, Ia., as state treasurer to fill the vacancy caused by the death last Saturday of W. C. Brown. Mr. Hoyt will commence his new duties tomorrow. The funeral of the late Mr. Brown was held at Clarion, Iowa, his former home.

FIFTY FIVE PLAYERS SUBJECT TO SERVICE

Chicago, May 14.—Approximately 55 men from each of the two major leagues are subject to the national service under the selective draft, according to an estimate made by Ban Johnson, president of the American League, who was here today after a trip over the eastern end of his circuit.

ORDER ARMY BROUGHT TO FULL WAR STRENGTH

Will Begin Organizing 44 New Regiments Today

Further Efforts Will be Made to Stimulate Recruiting and Bring in the 116,455 Men to Fill up the Ranks—Expect Full Number Before June 15.

Washington, May 14.—Orders to bring the army up to its full war strength of 293,000 men were announced today by the war department. The organization of 44 new regiments will begin tomorrow with further efforts to stimulate recruiting and bring in the 116,455 men needed to fill up the ranks.

Since April 1, 67,443 men have been accepted and officials are confident that the full number will have been enrolled as war time volunteers before June 15. Expansion of the army will be accomplished by converting each existing battalion into a full regiment.

In the central department the 40th and 41st infantry will be raised at Fort Snelling, the 43rd and 44th at Fort Douglas, Utah; the Tenth and Eleventh Field artillery and 20th and 21st cavalry at Fort Riley, Kansas and the 16th and 17th field artillery at Sparta, Wis.

Quartermaster officers have already been assigned to establish quarters in a large number of regular army officers have been ordered up for promotion preparatory to taking advanced grades.

In addition to the new regiments to be raised at each point, the remaining portion of each existing regiment which is divided to furnish a nucleus of officers and men for the new unit must be filled up again to war strength.

Orders have not been issued as yet for the expansion of the other arms of the service, such as the engineers, signal corps, coast artillery and hospital corps. They will be announced shortly.

When the expansion is complete, the regular army will have seven full divisions including the four infantry and two cavalry divisions regarded as essentially troops of the mobile army.

Another step expected soon is the order for the organization of regiments of regular heavy field artillery troops attached to no divisional organization but under the orders of corps commanders who employ the large calibre howitzers with which the regiments are equipped as the emergencies of the battle front dictate.

At least four regiments of this type must be provided, one for each infantry division. Expansion of the regular service also will call for the appointment in the near future of 18 or more general officers. No orders have been issued as yet covering assignments of officers to the new units. The war department is understood to be waiting action by congress of the project for army building mapped out would compel a revision of the plans in many respects.

ALLIED WAR MISSIONS RETURN TO CAPITAL

Will Hold Final Conferences With American Officials Before Returning Home.

WASHINGTON, May 14.—Members of the French and British war missions returned to Washington today for final conferences with American government officials before returning home. They will depart unannounced as soon as the business that brought them across the Atlantic can be closed up.

Both commissions are enthusiastic over the reception given them by the people.

M. Viviani called at the White House to tell President Wilson about his trip and talk over the work remaining to be done. Marshal Joffre visited the war department.

Mr. Balfour, quite tired by the excitement in New York and also seriously behind in all his routine work, spent practically the whole day either resting or clearing up details. His only engagement was for tennis late in the afternoon. This week will be devoted largely to final conferences after which the British visitors will be ready to leave. They are anxious to get away as soon as possible as their stay has already been much longer than expected.

RUSS MINISTER OF WAR RESIGNS

PETROGRAD, May 14, via London.—General Guchoff, minister of war has resigned.

In announcing his resignation at yesterday's meeting of the congress of delegates from the front, M. Guchoff read the following letter sent by him to Premier Lvoff.

"In view of the condition in which the power of the government has been placed, especially the authority of the minister of war, in relation to the army and navy, a condition which I am powerless to alter and which threatens to have consequences fatal to the defense, the liberty and even the existence of Russia can no longer exercise the functions of minister of war and marine and share responsibility for the grave sin being committed against the country."

QUINET ACCEPTS INVITATION

Chicago, May 14.—Francis Quinet former amateur and open golf champion held by the United States Golf association to be a professional today accepted the invitation of the Western Golf association to compete as an amateur in the amateur championship tournament to be held at Midlothian Country Club, Chicago, on July 9 to 14.

RUSSIA OBSTACLE TO EARLY PEACE

Turkey Endeavoring To Effect Separate Peace With Muscovites

AFFAIR UNSATISFACTORY

Turks are Said to Offer Com- plete Opening of Dardan- elles to Russian Ships

BRITISH TAKE ROEUX

Russia still looms in the eyes of the world as the portentous obstacle to an early successful issue of the war for the entente nations and the United States over Germany and her allies.

With a far from satisfactory state of affairs existing between the council of workmen's and soldiers' deputies and high Russian government officials comes a renewal of the rumor that Turkey is following in the footsteps of Germany and Austria-Hungary and endeavoring to effect a separate peace with Russia.

Would Open Dardanelles

The compensation said to have been offered by Turkey embraces a thing that has been the life-dream of Russia—the complete opening of the Dardanelles to Russian ships, both merchantmen and men-of-war. Turkey also would be agreeable if Russia would consent to lay down arms, to consider a satisfactory settlement of the Armenian question and likewise deal with her various subjects on the principle of nationalism.

While there have been rumors that the council of workmen's and soldiers' deputies has called for an armistice, official denial of this is made by the council. On the contrary it is stated by the council that an appeal to the soldiers is being drawn up declaring against a separate peace.

Meantime from the Baltic Sea to the Danubian region of Roumania the Russians and the forces of the Teutonic allies continue almost inactive in their trenches only sporadic exchanges of rifle fire and here and there small reconnaissances having been reported.

Turks Inflict Reverses

On both the Caucasus and Mesopotamian fronts, however, the Turks have inflicted reverses on the Russians, according to Petrograd. So, of Erzerum the Kurds have repulsed Russian forces after a stubborn fight while in Mesopotamia the Russians have been forced to retreat across the Djalra river.

A significant statement as to the desirability of Great Britain accepting a separate peace with Austria-Hungary has been made by the chancellor of the exchequer in the house of commons. There never had been a question of making a separate peace, said the chancellor, but at "that no blow would seem so fatal to Germany as if one of her own allies were detached from the fight."

On the front in France the British, after days of fierce fighting, have taken the village of Roeux, and north of Gavrelle have pushed their line forward. No infantry engagements have taken place between the French and the Germans but their artillery is still roaring in the great duels which always are the forerunners of attacks.

Capture Thousands of Germans

From April 9 to May 12—German to the number of 49,574 have been made prisoners in France by the British and French. In addition 444 heavy field cannon, 653 machine guns and 463 trench mortars were captured.

The sixth zeppelin to meet with destruction by the British and French since the war begun has been accounted for by the British naval forces in the North Sea. The airship the L-22 was completely destroyed and it is believed that most of its crew perished.

That Great Britain is immediately to adopt a more aggressive attitude in the war with her navy is shown by the appointment of a naval staff headed by Admiral Jellicoe one of her best sea fighters and naval tacticians.

Germany's submarine campaign so far as France is concerned has not been as successful as against Great Britain and neutrals. In three months only 17 French merchant men have been sunk.

OPERATORS AND MINERS RATIFY AGREEMENT

CLEARFIELD, Pa., May 14.—All probability of a strike of more than 45,000 bituminous coal miners in the Central Pennsylvania field was ended today by the ratification by representatives of the Operators' association and of District No. 2, United Mine Workers of America, of the compromise effected at a conference in Washington last week by Secretary of Labor Wilson.

The compromise reached at Washington it was announced today provides a wage increase of 25 per cent. with the additional provision that the men are to be paid cents a gross ton for car pushing.

ESPIONAGE MEASURE PASSES THE SENATE

Bill is Pronounced One of the Most Drastic in U. S. History

Similar Bill Has Already Passed the House and Virtual Redrafting of the Most Important Provisions is Expected in Forthcoming Conference.

Washington, May 14.—After nearly three weeks of debate, ranging over innumerable problems of the war, the senate by a vote of 77 to 6 tonight passed the administration espionage bill, pronounced one of the most drastic and all-inclusive measures in American congressional history.

A similar bill has passed the house and virtual redrafting of many of the most important provisions is expected in the forthcoming conference.

Vote Out Grain Restriction.

During today's final consideration the senate stripped the measure entirely of provisions for newspaper censorship and restriction upon manufacture of grain into intoxicating liquors, and rejected an amendment designed to curb speculation in food products. As completed the senate bill's principal sections provide:

Authority for the president to embargo exports when he finds that the "public safety and welfare so require." (Not in the house measure.)

Authority for the postoffice department to censor mail, and exclude mail matter deemed seditious, anarchistic or treasonable and making its mailing punishable under heavy penalties. (Not in the house bill.)

For punishment of espionage defined in most detailed terms, including wrongful information for the control of merchant vessels in American waters. Punishment for conveyance of false reports to interfere with military operations, willful attempts to cause disaffection in the military or naval forces or obstruction of recruiting. For the seizure of arms and munitions and prohibition of their exportation under certain conditions.

Would Penalize Conspiracies.

For penalizing conspiracies designed to harm American foreign relations or for destruction of property within the United States.

For increased restrictions upon issuance of passports with penalties for their forgery or false procurement and use.

For material extension of the power to issue search warrants for inspection of premises.

The clause giving the President power to embargo exports was retained in the bill virtually as drafted by the senate committee.

The senate voted 48 to 24 to eliminate all provisions for the press censorship. The administration is expected to bring strong pressure for drafting in conference of a compromise censorship section.

On the question of prohibition and foodstuff conservation the senate vote of 47 to 37 reversed its action of Saturday in accepting Senator Cummings' amendment providing that during the war, manufacture of cereals, grain, sugar and syrup into intoxicating liquors should be prohibited. By this vote it struck out the Cummings amendment, offered as a food conservation measure but attacked as really a prohibition move.

An amendment by Senator Thomas to suspend during the war, exchange and boards of trade permitting "future" trading in foodstuffs was rejected, 49 to 24 after three hours stormy debate.

The senate voted 52 to 29 to retain that part of the mails espionage section which some senators say will give the postmaster general drastic powers of censorship.

WANT "WHITE ZONES" ABOUT MILITARY CAMPS

COLUMBUS, O., May 14.—The Mississippi Valley victory conference of suffragists here at today's closing session adopted resolutions urging war measures for the establishment of "white zones" about military camps from which liquor should be barred and forbidding soldiers visiting gambling and other resorts; favoring the prohibition or manufacture and sale of liquors during the war in order that grain entering into its manufacture be saved for food; urging the early passage of a federal suffrage amendment and recommending immediate steps for the regulation guaranteeing women, who replace men in industrial and other work, the same salaries as were paid to men.

FORM CO-OPERATIVE COAL COMPANY

CHICAGO, May 14.—In an effort to reduce the cost of coal, the Chicago renting agents' association, representing 20,000 apartment house owners, has formed the property owners co-operative coal company and has contracted to buy an operating coal mine in the Pocahontas fields of West Virginia. The company, it was announced, has a capital stock of \$1,500,000 and will be operated for the property owners exclusively. Options also have been obtained on three other mines in the same fields, it was stated.

SUBSTITUTE ONION AND POTATO FOR STAMPS

New York, May 14.—In sections of the city where trading stamps were so popular before the advent of war prices, the onion and potato have been substituted as bait for patronage by grocers and fruit dealers. In the Ridgewood section of Brooklyn a small potato or onion is given with each ten cent purchase.

GRAIN MEN TO TAKE UP SITUATION TODAY

Will Discuss Prices, Run- way Tendency of Market and Washington Attitude

CHICAGO BOARD ACTS

Stops Buying of May Options and Orders Contracts Closed At Fixed Maximum Prices

OTHER BOARDS ACT

CHICAGO, May 14.—The low swell of business disturbance due to the entry of the United States into the world war broke in a crooked wave over the leading grain exchanges of the country today.

Will Discuss Situation.

Tomorrow representatives of these exchanges will meet here to discuss the situation—the high prices of grain, the runaway tendency of the market and the attitude of the government at Washington. There is among influential Chicago grain men a sentiment that speculation in futures should be absolutely eliminated, either by complete stoppage of the practice, or by fixing a maximum price for futures. The sentiment, however, was by no means unanimous. It was reported that the Minneapolis delegation would oppose such procedure. Delegations are expected from Duluth, Toledo and Kansas City.

The Chicago Board of Trade began the day by taking unprecedented action to curb speculation. Buying of May options in grain were prohibited and outstading contracts were ordered closed at or under maximum prices fixed by a committee of the board. Trading in July and September wheat was curbed for a period of two days except at \$2.75 or under for July and \$2.45 a bushel or under for September.

Causes Decline in Wheat

The maximum price for closing out May corn was fixed at \$1.61½ and for May oats at 73½ cents a bushel. The result of these regulations was a sharp decline in wheat and advances in the coarser cereals. Net changes for the day follow:

Wheat—July 16 cents lower; September, 18 cents lower.
Corn—July, 6 7-8 cents higher; September, 8 5-8 cents higher.

Oats—July 1½ cents higher; September, 2½ cents higher.

At St. Louis, Kansas City, Duluth, Minneapolis and Toledo, the board took action approximately similar to that of Chicago. At St. Louis wheat declined ten to eleven and one-quarter cents. There was a holiday at Winnipeg but the board there voted to discontinue trading in October futures the only one recently quoted.

Three Houses Out of Board.

St. Louis corn advance to 6 5-8 to 8 3-8 cents. Three big commission houses during the day outbid the board in their action but their lead was not followed to the extent which had been anticipated.

Logan & Bryan, Thompson & McKinnon and Wagner & Co., notified their customers that until further notice they would accept no trades in futures except to adjust existing contracts.

RECLAIMED TERRITORY WILL BE RECONSTRUCTED

NEW YORK, May 14.—Reconstruction of the devastated territory in France and Belgium, reclaimed by the Entente Allies, is to be begun at once, almost within ear-shot of the enemy's guns, according to announcement today by William Howard Cobb, an American engineer and technical director of the Societe Generale Industrielle which is to undertake the work. Among the directors of the organization are some of the most prominent industrial leaders of France. Mr. Cobb said he would go to Washington on Wednesday to confer with government officials.

THE WAY TO TELL THEM.

Thomas Robins, secretary of the naval consulting board protests against indiscriminate handing out of information as to discoveries and plans to overcome the submarine. He puts it this way: "The first people outside of our navy department to be informed of means to destroy the submarine should be the crew of a German U-boat."

The U-boat crew should get their enlightenment from an American destroyer crew at first hand and in action. Berlin should hear the news later.

TRIALS OF RULERSHIP.

President Wilson is not the only man who "has his troubles" in these days of "wars and rumors of wars." He certainly has enough to turn his hair gray in the new and unexpected phases of diplomatic organization and other details of government, the unexpectedness of so many of the demands being one of the hardest features to handle.

But he is not alone among those in high places who are so tortured. Von Hollweg of Germany is surrounded by increasing difficulty in his premiership, and the new men attempting to learn how to conduct the government of Russia have no enjoyable positions. The comparatively new king of Sweden has to feel his head every morning to make sure that it is safely in place on his shoulders. It may be that Caranza has his full share of anxieties now too. But he has dropped into such secondary position as almost to be forgotten.

PULLING ILLINOIS OUT OF THE MUD.

In all, 50 state roads have been contracted for recently by the Illinois state highway commission, for construction alone. Resurfacing will be done on several others.

The contract has been awarded for a 16-foot wide concrete road in Hall township, Marshall county, the price being \$8,557.79, slightly below the state commission's estimate.

Bids will be opened for the concrete extension of Knoxville road, Peoria county, from Orange Prairie to Kichanow village, a distance of three and one-half miles, the estimate of which has been placed at \$12,869 by County Superintendent Emery.

The Sackman county board of supervisors has appropriated \$5,000 for clearing the roads of that county, on condition that the Springfield Automobile club give an equal amount and the township raise \$10,000 more, \$20,000 in all. LaSalle county's apportionment of the Tice road fund for 1917 will be \$33,200. With the exception of Cook county, La Salle receives a greater share than any of the other counties.

One mile of concrete road will be built in Jo Daviess county this year. Half of it will be near Galena and the remainder near Elizabeth.

The Logan county supervisors have

given approval to state-aid road improvements on state-aid routes 1, 3, 5, 7, 11 and 13. Some 20 miles of these routes will be graded.

Kenosha county will complete the Sheridan drive from Kenosha to the Illinois line this season. Bonds for \$90,000 have been ordered.

And Adams county will extend her state-aid road about two miles this year.

HONOR CORN.

As Uncle John Cannon says, while we may miss our wheat and potatoes, we, at least in Illinois, can exist gloriously with plenty of corn. Corn is the symbol of the American Republic. The founders of the colonies lived on it. Early American life was corn-fed. Corn fed boys saved the nation, and corn-fed boys will help whip Germany.

As one who has enjoyed the viands testifies, hoe-cake, corn bread, hominy, mush with cream or butter, fried mush with or without syrup, and other corn-constructed foods are as appetizing as any, and beat wheat, or barley, or rye, in producing rugged and courageous humanity.

As we can finely substitute corn for wheat, we can likewise substitute rice for potatoes and live a life worth living.

As the old warrior and statesman, Uncle Dick Oglesby, once said:

"In the yellow breast of corn is the wealth of nations, and the health of men. It is a courageous food for brave fellows. It is an aesthetic pleasure to the sight as it stands by acres nodding to the soft wind in a hot sun, and a dish for Esau when it comes to the table in any of the forms in which a skilled housewife can set it before the family."

SOME MEN TO HANDLE.

The government proposes to raise an army of 1,200,000 immediately. That is a very large army, although not as large as European armies are now numbered. Five hundred thousand of these are to be drafted immediately. If the conscription bill becomes a law soon, the duty of registration is imposed on men between the ages of twenty-one and thirty and not to register makes one liable to severe punishments. As we remarked the other day it is hoped that in this city there are not any who will be forced to register, but that all will do so cheerfully and willingly as a patriotic duty. It will show the disposition of the young men of the community and their appreciation of the country in which they live and the privileges that they enjoy and their belief that these privileges and opportunities should be transmitted unimpaired. In case of conscription one can make more trouble for himself than he does for the government. There should be the same loyal eagerness shown on this side as on the other.

WHY WE SHOULD DRAFT PROFITS.

Can we with an income tax and a tax on surplus profits raise enough money to pay for this war as we go along?

Take the American incomes as reported in 1915 and if we did no more than begin with a tax on those of \$10,000, increasing the rate to 100 per cent on all surplus incomes over \$150,000, we should raise \$1,200,000,000.

Since 1915 the big incomes have soared.

There are about 100 good and sufficient reasons why we should conscript these big surpluses. First, the European war raised the profits of many American concerns to colossal figures. It is manifestly unfair that these fat profits should be permitted to continue, yielding comparatively nothing to meet the expense of the war now that we are in it.

The net profits of the Armour Packing company rose between 1913 and 1915 from \$5,000,000 to \$20,000,000; the net profits of the Bethlehem Steel Corporation rose from \$5,000,000 to \$45,000,000; DuPont Powder company from \$1,000,000 to \$82,000,000; Swift Packing company from \$9,000,000 to \$20,000,000; Central Leather company from \$1,000,000 to \$15,000,000; United Fruit company from \$5,000,000 to \$11,000,000; United States Steel Corporation from \$81,000,000 to \$271,000,000. One of the richest beneficiaries of these huge profits, whose income from but one of his enterprises is more than \$30,000 a day, said recently that he wished the government would step in and stop the tide. He does not know what to do with the ocean of money that is rushing in upon him.

PATRIOTIC PHYSICIANS.

Every great offensive sends to the base hospitals in Paris wounded soldiers at the rate of 20,000 a day. Such a battle as that around Arras deluges the receiving stations with shattered and bleeding men whose number exceeds the population of such a city as Peoria, East St. Louis and Dayton, O.

To treat the wounded properly is an almost insuperable task. It is one under which English and French physicians, who have been working day and night for three years are breaking down. The demand for 5,000 American physicians is most urgent.

Nothing has been more gratifying than the response to the appeal. Physician after physician is planning to abandon a remunerative practice built up by years of effort, and go to France.

The rule that war demands the sacrifice of the best holds good in the medical profession. In New York it is not the young internes that are preparing to go to the front, so much as the older and most successful physicians, among them specialists of national fame who will see their incomes decline from \$25,000 and \$30,000 to \$3,000 a year.

A London telegram says that enrollment of English doctors for service in France, made necessary by

the British war department's decision not to send home so many wounded, owing to the torpedoing of hospital ships, is proceeding with out greatly disturbing the medical arrangements in this country. Private practices will not be seriously impaired. Equipment and personnel of private or semi-private hospitals opened for the wounded will not be interfered with, and the some economies of staff will be effected in the large public hospitals, their efficiency, it is said, will not be impaired as the military authorities do not expect to take many men from them. The method volunteering for service in France is simple. If a doctor is prepared to accept a commission for immediate service he signs a contract form which the local recruiting office will provide and he will be ready to join the colors at 48 hours' notice. If a doctor receives a call and feels that he cannot go he must lodge an appeal which will be considered by the Central Medical War Committee which will pay attention to any claim he may urge that his practice is necessary for the local civilian population. He will not be called up till his case has been decided.

Medical men over military age and even retired doctors are expected to volunteer to take the places of younger men called upon.

READING OF WAR NEWS.

Figurative descriptions of battles and the summing up of military results in any offensive, if one is not to fall into error, must be read with the recognition that newspaper correspondents are not sacrificing splendid pictures by technical precision as to details. The Associated Press writers on the Arras front are artists, not draughtsmen.

When it is said that a wide sector of the Hindenburg line is "broken" what is really meant is that the line is pressed back or bent, rather than shattered. There are intelligent observers who maintain that to break either of the lines on the western front would be a physical impossibility.

If a line were really broken the men who rushed thru the breach would be subjected to a cross fire of artillery from the broken ends which would wipe them out. This is why offensives must cover at least 20 miles of front. A narrow indentation would only be a massacre.

The strategy of the Allied commanders is to press Hindenburg back foot by foot, inch by inch. The progress will be slow at times, faster at others, depending much upon the topography.

It must be remembered that the Germans as invaders always have had their choice of positions, and invariably have entrenched themselves on high ground. The Allies thrust have been fighting up hill. After the March withdrawal Hindenburg again fortified himself on the crest of the ridges running from Arras to Cambrai. If the Allies take these there will probably be another German retirement.

Talk of "rolling up the Hindenburg line" appeals, presumably rather more to dilettante strategists than to responsible commanders. This was indeed the purpose of Kitchener and French at the beginning of the war in sending an expeditionary force to Antwerp, where the western end of the German line begins. Protected on one side by the sea, the British force had it been sufficiently powerful, could have entailed the Germans out of their strongholds, and started the rolling process, but for reasons, that are now history the plan failed. A start at the other end, in the heights of the Vosges is out of the question.

Battle stories lose nothing of their interest if they are read with the appreciation that trench fighting is different from any kind that the world has ever known, and that the terms used in past wars have little significance in this.

Rippling Rhymes By WALT MASON

Another Slacker

That citizen is somewhat puny who hastens into matrimony, that he may dodge the fray; it ought to shame his soul, doggone him, upon his wedding day. Methinks I see him humbly kneeling, his voice all choked with maudlin feeling, before some maiden fair: "The thought," he says, "of doing battle out where the noisy cannon rattle is whitening my hair. So long as I'm remaining single, the chances are I'll have to angle with men whom I abhor; I have no use for soldiers' labors, I have no use for guns and salpêre, I have no use for war. I'd rather hear my neighbors hoot me, than have a husky German shoot me, or prod me with a sword; I'd rather men should call me Rabbit, than fall into the beastly habit of being carried or bored. So marry me, sweet Isabella! Have pity on a cringing fellow, who hates the thought of blood, for if you won't the avort disaster, by chasing with me to the pastor, my given name is Mud." You'd think the girls would deem his doty, that they in angry tones and haughty, would order him away; but Slacker prospers in his wooing, girls like his billing and his cooing, and wed him every day.

I am of opinion that the Pottawatomies and Winnebagoes have joined the United States. To subdue these Indians, and to drive them out of the State, it will require a force of at least 2,000 mounted volunteers more, in addition to the troops already in the field. I have made the necessary requisitions on the proper officers for the above number of mounted men, and have no doubt the citizen soldiers of the State will obey the call of their country. They will meet at Hennepin on the Illinois River in companies of 50 men each on the 10th of June next to be organized by brigade. John Reynolds, Commander-in-Chief.

Y. M. C. A. NOTES.

The solicitors for the Y. M. C. A. fund reported a total collection of \$368.50 on Monday. The sum was all collected within the limits of the city. This makes a total for the district of \$577.50. The collections in other cities and towns of the district were commenced Sunday but no report has yet been received. It is essential that \$2,000 be raised in the district this week. A business meeting of the board of directors was held at the association rooms Monday. It is planned to select a committee for intensive work in Jacksonville. The names of the committee will be announced within a few days.

A CREAMY LOTION
MADE WITH LEMONS

Prepare a quarter pint at about the cost of a small jar of common cold cream.

When this home made lemon lotion is gently massaged into the face, neck, hands and arms daily, the skin naturally should become soft, clear and white, and the complexion dainty and attractive.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid; therefore irritating, and should be mixed with orchard white this way. Strain thru a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it naturally should help to whiten, clear, smoothen and beautify.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons. In this sweetly fragrant lemon lotion ladies can easily prepare and have an inexpensive toilet aid which perfectly satisfies their natural desire for a beautiful soft skin.—Adv.

A FINE PIECE OF FURNITURE.

J. P. Brown, the south side music dealer, has completed for his use a fine roller top desk made from Victoria packing cases. The article is very ingeniously constructed and wholly done by Mr. Brown excepting the round ends which were sawed and grooved by machinery. The desk is probably four by four and a half feet long, is fitted with sets of drawers at each end, a perfectly working roller top, lock and all, the usual conveniences. Mr. Brown never

JOSEPH H. CHOATE DIES SUDDENLY

(Continued from Page 1.)

turer on American institutions and American statesmen.

Was Paul High Compliment. A mark of respect never before conferred upon a foreigner in England since the middle of the 17th century was paid him when he was adopted by the inner circle of the British Bar and made a "bencher" or member of the governing body of the Middle Temple. It was, in fact, a compliment never before paid to a lawyer of American birth and training.

As an after-dinner speaker Mr. Choate was a national—international possession.

The stories told about him, too, were as countless as those he told for he was one of those picturesque figures about which stories cluster, some of which undoubtedly belonged to others. One typical flash of his wit is that with which he answered a dinner partner, who asked who he would choose to be if he were not Joseph H. Choate.

"Mrs. Choate's second husband," was the instantaneous reply.

Mrs. Choate was Caroline D. Sterling of Cleveland, O., whom he married in 1861, and by whom he had five children.

ENDORSE LEAGUE TO ENFORCE PEACE

LONDON, May 14.—A league of nations to enforce peace, as championed by President Wilson, William H. Taft and other American statesmen, was enthusiastically endorsed by 1200 representative men including clergymen and members of the house of lords and commons held under the auspices of the league of nations society. Viscount Bryce presided. The other speakers were the most Rev. Randall Thomas Davidson, Archbishop of Canterbury; Lieut. Gen. Jan Christian Smuts; Baron Buckmaster, Lord Hugh Cecil and Viscount Harcourt.

Viscount Bryce said that the objects of the meeting were "to advocate an agreement among civilized states which will serve as a basis for permanent peace among them by providing for a peaceful settlement and for the observance of treaties and international law."

This war would be a stupendous calamity, he declared, if it did not suggest a means to escape from its affliction by changing the hearts of peoples of the world.

GUARDSMAN SHOTS UNIDENTIFIED MAN

DES MOINES, Ia., May 14.—An unidentified man known to his associates merely as Joe was shot and killed here today by Sergeant Fordell of Co. B, Waterloo company, national guards. A number of foreigners had been shooting at troops guarding the Great Western round house and soldiers detailed to search a house some distance from the building were carrying out orders when the shooting occurred.

FOREST FIRES BURNING IN MINNESOTA

Virginia, Minn., May 14.—Forest fires burning in close proximity to the city enshrouded Virginia in smoke last night. Fires are burning at Loss Lake, near Gilbert, at Fly Lake, close to Genoa and at White Lake near McKinley.

Constant watch is being maintained. A forest fire that threatened the village of Kinross Saturday morning has diminished.

INDICATE AGUILAR'S ELECTION

Mexico City, May 14.—Reports received concerning the election held today in Vera Cruz indicate that General Candido Aguilar, for Secretary of State has been elected governor of the state. Congress will elect eleven members of the supreme court next Wednesday. They will take office in June. One candidate will be selected by each state and territorial delegation and the eleven men receiving the highest number of votes will be chosen for office.

WARNS AGAINST FALSE ECONOMY

CHICAGO, May 14.—Warning that false economy in the present national crisis will result in stagnation and defeat the aims of the government was voiced today before the spring meeting of the National Dry-goods association by John G. Shedd, the head of one of the largest retail establishments in Chicago. "The message of the president of the United States on economy and waste has been misinterpreted in such a manner that its effect threatens an impairment of business," said the speaker. "The elimination of waste is always an admirable thing to emphasize but to have the word economy misunderstood by the public means stagnation and defeat of the very aim for which government is striving. The large government loan with which we shall be glad to cooperate cannot help but give a strong impetus to business. The expenditure of this vast sum alone will keep labor busily employed."

LAMAR TESTIFIES IN CONSPIRACY TRIAL

NEW YORK, May 14.—David Lamar, widely known as "the wolf of Wall street," testified today that the plans out of which grew labor's national peace council were first discussed by him with the Rev. D. Thomas Hall, a New York clergyman thru whom he met Captain Franz Rintelen of the German navy who gave him the money to start an anti-munitions traffic campaign. Lamar, Rintelen and five others are on trial charged with using the council in a conspiracy in 1915 to wreck the entente allies munitions business in this country. Lamar said he went to Indianapolis with Henry B. Martin, one of the defendants after he received the German's money and that Martin got in touch with former Representatives H. Robert Fowler and Frank Buchanan, also defendants.

Martin told him, Lamar testified, that both these men denounced the "munitions trust" and that "Buchanan took a very advanced position and would go to any lengths to keep this country out of the war."

MAY MAKE FURTHER RAISE IN BREAD PRICE

CHICAGO, May 14.—With the 15 to reduce the cost of coal, the Chicago today faced a possible further increase in bread prices. Charles A. Paesch, president of the Illinois Master Bakers' Association, said that his organization had decided that even twenty cents is not too much to charge for a loaf under present circumstances and that because of the saving in wrapping labor such a loaf can be made which will weigh 2 1/4 as much as a ten-cent loaf and yet leave the same profit. He advocated a fifteen cent loaf as the minimum size.

BRITISH DESTROY ZEPPELIN L-22

LONDON, May 14.—British naval forces destroyed Zeppelin L-22 in the North Sea this morning according to an official statement issued by the admiralty.

The destruction of the L-22 marks the fourth attempt at Zeppelin raids within the last year which has ended in disaster. Two of the mammoth ships were shot down during a raid on London on September 23, 1916, and two months later two more Zeppelins were destroyed off the English coast. On March 17 French artillerymen shot down a Zeppelin behind the French lines while it was endeavoring to reach Paris.

WOULD DECLARE IRISH FREEDOM

Washington, May 14.—Representative Mason of Illinois, Republican, introduced today a joint resolution which would declare Irish freedom one of the purposes of the entry of the United States into the war, commit the United States to stand for Irish home rule in peace negotiations and to purchase \$100,000,000 of Irish government bonds and provide for the appointment of an American commission to Ireland if the Irish people request it.

QUEEN CONGRESS OF PEASANT DELEGATES

Petrograd, May 14.—via London.—A congress of peasant delegates representing 27 provinces, opened here today. The bureau of the congress issued an urgent appeal to the peasants thruout Russia "for the salvation of the country," to furnish grain and fodder for the army and the people in the rear.

FIGHT TO A DRAW

Davton, O., May 14.—Tom McMahon and Jack Dillon fought fifteen rounds to a draw here tonight. Dillon contented himself thruout with defensive fighting much to the crowd's displeasure. Referee Bauman warned McMahon against holding several times during the bout. Dillon never once opened on McMahon and during the last three rounds permitted the latter to push him round the ring at will taking care, however, to ward off his blows.

CHARGE MINISTER WITH VILLISCA AX MURDERS

Rev. Geo. Kelly Surrenders to Red Oak, Ia., Authorities

Place Preacher in Jail to Await Trial On Charge of First Degree Murder —County Attorney Refuses to Disclose Nature of Evidence.

RED OAK, Ia., May 14.—Rev. George J. Kelly late today surrendered to authorities here and was placed in county jail to await trial on a charge of murder of first degree in connection with the "Villisca ax murders" in 1912, when six members of the Moore family and two visitors were murdered at the Moore home. At the time of the crime Rev. Kelly is said to have been in charge of a parish near Villisca. Since then he has been located at various points in Missouri, Iowa and Nebraska.

County Attorney Oscar Westrand, to whom Kelly surrendered would not disclose the nature of the evidence but said a warrant for the minister's arrest had been issued following the recent prolonged investigation of the murders by a grand jury here.

Will be Taken to Des Moines. Des Moines, Ia., May 14.—Rev. Lynn George Kelly, arrested today at Red Oak, Iowa, in connection with the Villisca ax murders in 1912, will be lodged in the Polk county jail here tomorrow to await further action by the state department of justice, according to a statement issued tonight by Attorney General Havenner.

Altho the Attorney General made no announcement as to the charges in the case it was stated by an attaché of the department who is reliably informed that Kelly probably will be first brought before a sanity board.

According to the attorney general an important clue connected with Kelly's arrest was found in a package of clothes left with a Council Bluffs, Iowa, laundry a few days after the murders.

The bundle which contained a bloodstained shirt was claimed by Kelley. The indictment which resulted in the man's arrest today was returned at a recent session of the Montgomery county grand jury as a result of testimony given by a "reputable witness." This witness was said by the attorney general to have declared that Kelly related the details of the crime to him at Macedonia, Iowa, seventy five miles from Villisca, only a half hour after the murders were discovered.

Had Parish Near Villisca. Kelly, who was a Presbyterian minister according to his own statement at that time had charge of a parish at short distance from Villisca. On the night the crime was committed he is said to have slept in Villisca at the home of the local Presbyterian minister and the next day to have taken an early train for Macedonia.

The murders occurred on Sunday night, June 9, 1912. The victim, Joe Moore, Villisca implement dealer, his wife and their four children together with two visiting children by the name of Stillinger—were killed in their beds as they slept. Their heads were literally hacked to a pulp. A bloodstained axe, which was found leaning against a wall in the house bore witness as to the weapon used.

A feature in the case which attracted wide attention during the ensuing investigation was a \$50,000 slander suit instituted in 1916, by former state Senator F. F. Jones of Villisca against J. N. Wilkerson, detective operative because his name was connected with the murders. Wilkerson won the case but Jones was later exonerated.

During the past month, while Kelly has been under close surveillance by the authorities, he has been preaching at the various parishes in Southern Illinois which comprises his charge. He was assigned to churches at Arlington, Pilot Grove and Macedonia following his graduation from an Omaha Seminary in 1912. At the time of the murders he was a student at this institution but preached at Macedonia and Villisca on alternate Sundays. Kelly is a native of England and came to this country about ten years ago.

Attorney Tells of Testimony. About three weeks before the crime, according to the statement of the attorney general tonight a reputable witness testified that Kelly was discovered looking into the house of the witness where the latter's wife was moving about the room in her night clothes, and was frightened away. Testimony also is cited showing that Kelly was seen wandering aimlessly about the town at all hours of the night.

On the night the murders were committed Kelly is said to have come from his country charge of the town of Villisca and attended a children's day exercise at the Presbyterian church. After the service he went to the home of the minister and was shown to his room. The pastor testified it was arranged that Kelly was to get up for an early train for his home at Macedonia.

The witness testified further that Kelly told him that he had been unable to sleep during the previous night and had upon going out on the balcony of the house about 1 o'clock at night heard the thug of an axe which killed the Moore people and that he was one of the first men in the house after the murders were discovered.

Letters in the hands of the authorities show that Kelly wrote both to the Presbyterian minister at Villisca and to a brother of the murdered man asking permission to work on the case.

MANY FAIL TO REPORT AT FORT SHERIDAN

Failure to Report Drops Their Names from the Rolls

Places Will be Filled with Men Who Have Been Certified as Suitable But for Whom There Were no Accommodations.

Fort Sheridan, Ill., May 14.—Spreading out on the lake front this evening are two camps, one housing candidates for commissions in the United States army officers reserve corps from Illinois and the other those from Wisconsin and Michigan.

Altho recruits have been arriving since May 8, several hundred men who had been ordered to report had failed to do so tonight. Failure to report tonight dropped their names from the rolls and their places will be filled with other men who have been certified as suitable but for whom there were no accommodations.

Only About Half in Uniforms

Only about half the men had uniforms today, the others appearing in civilian clothing, baseball uniforms, jerseys and other sporting clothing. A typical group was that in one of the Michigan-Wisconsin companies, where a baseball pitcher in a crimson sweater and a grey baseball cap stood next to a diamond rival in the maze and blue of Michigan. A Spanish-American veteran stood between a youth yearning a derby and one who had a white yachting hat perched on the back of his head. However, it was expected that all would be uniformed tomorrow.

"There hasn't been a complaint and the men are going at their work in great shape," Captain Wallace Seales, camp adjutant said.

Had to Report \$2,000

Chicago, May 14.—More than 12,000 men certified as suitable had to be denied admission to the four central department officers' reserve corps training camps because of lack of accommodations, it was announced at department headquarters here tonight. The combined capacity of the camps at Fort Sheridan, Ill., Fort Snelling, Minnesota, Fort Riley, Kansas and Fort Benjamin Harrison, Ind., is about 15,000 and a total of 27,397 were certified.

TWO MEN KILLED IN ATTEMPTED ROBBERY

Assistant Cashier and One Bandit Killed—Other Would-be Robbers are Captured

Pittsburgh, May 14.—Two men were killed and five wounded, one probably fatally, at Castle Shannon, a suburb, soon after noon today when an attempt was made to rob the First National Bank of Castle Shannon. D. L. McLean, cashier, and his assistant, were in the bank when four men entered and ordered them to throw up their hands. The robbers began shooting immediately and both bankers fell. They then gathered up all the money in sight and ran into the street where an automobile awaited them. George Beltz Hoover, a magistrate, raised a gun to fire, and one of the bandits fired at him and another knocked him down. They then ran to the automobile. Two jumped in and were driven away, while the other two ran toward the Castle Shannon Golf Club nearby. They were pursued by a number of citizens and finally cornered, one of them being killed and the other escaping.

Meantime, a posse had followed the others, and overtook them ten miles away, where, it is reported, both were wounded and captured. McLean and Erbe were taken to a Pittsburgh hospital where Erbe died and physicians said McLean could not recover.

PRESIDENT PLEASES SUFFRAGE ADVOCATES

WASHINGTON, May 14.—President Wilson pleased a committee of woman suffrage advocates who called on him at the white house today by saying that his mind still was to "let" on the question of woman suffrage and that the question was constantly pressing on his mind for reconsideration.

It was the first time in more than a year that the president had received the suffrage delegation. His position always has been that suffrage is a question to be dealt with by the states. Five political parties were represented in today's delegation, which consisted of: A. H. Hopkins, Progressive of New Jersey; Dr. E. R. Rummy, Independent Republican, New York; John Spargo, Socialist, Vermont; Virgil E. Hinshaw, Prohibitionist, Illinois and Miss Mabel Vernon and Mrs. Abbie Scott Baker, woman's party, Washington.

ENGLAND RECEIVES THIRD INSTALLMENT

WASHINGTON, May 14.—Great Britain today received a third installment of \$25,000,000 of the \$100,000,000 which the United States has agreed to lend to meet British purchases in this country during May.

This brings the amount advanced to Great Britain thus far up to \$275,000,000 and the total to all the allies, exclusive of the \$75,000,000 to be loaned to Belgium for feeding the population in occupied area up to \$475,000,000. The other \$200,000,000 has been divided between France and Italy.

It is understood that Great Britain is purchasing supplies on behalf of Russia in this country there having been so far no loan made by this government to Russia.

CARSON ANNOUNCES BRITISH NAVAL REFORM

LONDON, May 14.—Naval reform, long demanded by public opinion and which is the direct outcome of the submarine menace was announced to parliament today by Sir Edward Carson, first lord of the admiralty. It takes the shape of giving to the admiralty a stronger board for doing for the navy what the committee of imperial defense does for the army.

Heretofore, the admiralty board has been hampered by heavy administrative duties concerning construction and supply which interfered with its giving its best attention to the fighting side of the navy. The board consists of Admiral Sir John Jellicoe, Admiral Sir Henry Oliver, Rear-Admiral Alexander L. Duff, Rear-Admiral Halsey, Sir Eric Campbell Geddes and H. H. D. Tophill.

REPORT SINKING OF U-BOAT

New York, May 14.—Destruction by a German submarine of the British Steamship Corfu, on April 17 while on the way from Philadelphia to Genoa with iron was reported today by a British steamship arriving from the Mediterranean. The Corfu, a vessel of 2,355 tons, was sunk 150 miles west of Gibraltar to which her crew except one killed by shell fire, were brought.

TAKE THREE INTO CUSTODY.

Detroit, Mich., May 14.—Agents of the department of justice today took into custody three more persons on charges of complicity in a plot to set on foot a military expedition against Canada. Albert Kalschmidt, prominent local German-American, was arrested on this charge several weeks ago. It was charged that he was the head of the alleged plot.

TO URGE STATE TO PROVIDE FOR SOLDIERS' DEPENDENTS

Chicago, May 14.—A committee of public officials was appointed at a meeting here today to go to Springfield and urge upon the legislature the need of appropriations to provide for persons dependent on men who enlist in the national defense service.

Mrs. Elvira Gage Brock, widow of the late Marquis L. Brock, died at the home of her niece, Mrs. David Davis in Litchfield, Monday morning at 2 o'clock. Deceased was for a number of years a resident of Jacksonville, making her home with Miss Mary Brock at 202 Woodland Place.

Funeral services will be conducted at Litchfield Wednesday and interment will be made in the cemetery there. A suitable obituary will appear later.

Smith.
Joy M. Smith of Herington, Kan., passed away Saturday night at 11:50 o'clock, according to a brief message received Sunday morning which told no further particulars of his death. Mrs. E. E. Smith, 615 South Diamond street, mother of the deceased, had received a message Saturday evening that her son was not expected to live, and left on the 9:50 o'clock train for Herington by way of Kansas City.

Mr. Smith, who was twenty-five years of age, had employment with the Rock Island railroad company and has made Kansas his home for several years. He was married in November, 1915, to Miss Belle Whitman, who survives him. Besides the parents, Mr. and Mrs. Elmer E. Smith, there survive, four sisters, Misses Nell, Ethel, Lulu and Verna Smith, and one brother, Truman Smith. The father has spent most of his time in Kansas during recent years looking after farming interests and was with his son at the time of death.

Further particulars as to funeral arrangements will be given later.

MRS. WILLIAM T. REID DIES IN CALIFORNIA

Former Resident of This City Passes Away at Belmont Home—Husband Famous as an Educator.

Word has been received here of the recent death of Mrs. Julia Reid, wife of William T. Reid, who passed away at her home in Belmont, Cal. Mrs. Reid was a daughter of the late Dr. M. M. L. Reid of this city and was born at the family home situated where the Home sanitarium now stands on West Morgan street. She was seventy-two years of age at the time of her death.

Mrs. Reid was educated in the public schools of this city and was graduated from the Jacksonville Female academy. Her marriage to Prof. Reid took place in 1868. Mr. Reid at one time lived in Jacksonville himself but then was principal of the public schools in Brookline, Mass. He was later called to the presidency of the University of California at Berkeley and filled that position with marked ability. Still later Prof. Reid became proprietor of a private school for boys at Belmont, a suburb of San Francisco. Surviving Mrs. Reid are her husband, one son and one daughter.

Mrs. Reid's parents died many years ago, her mother spending her last days tenderly cared for at Belmont, passing away at the advanced age of 92 years. Two sisters, Harriet and Mary, have passed away; one, Mrs. Maria Thompson and one brother, Albert of Newton, Ia., survive her. Her husband has one brother, Newton of south Main street, this city. He is also a cousin of Stephen, William, Joseph and Charles Capps.

Mrs. Reid was a lady of rare qualities and culture. She was finely educated and was the daughter of parents who were able to give her the best advantages. Her parents were charter members of the Congregational church of this city and among the choicest of the early settlers of this locality. She was a devoted member of the church here, a worker in the Sunday school and always ready to do all in her power in every good work.

Mrs. Reid had been in poor health for some time, but acute pneumonia was the immediate cause of her death.

OUTLINES PLANS FOR SHIP BUILDING

WASHINGTON, May 14.—The administration plans for trebling within eighteen months America's ship tonnage available for Trans-Atlantic service were outlined to the senate commerce committee today by Chairman Denman of the shipping board. Bills asking an initial appropriation of \$100,000,000 for the purpose will be introduced within a few days. By speeding up construction under powers requested in the bills the shipping board hopes to turn out in a year and a half 2,000,000 tons of vessels in addition to the 2,000,000 actually building now.

The bills would give the board the widest powers in directing American shipping and would permit diversion of any ships not actually necessary in coastwise trade to Trans-Atlantic service.

Without awaiting agreement on a definite program the board is putting German ships as fast as they are repaired to carrying supplies to the countries that apparently need them most. Already two of the vessels have left with cargoes for France and Italy.

APPEAL TO PEOPLE TO DEFEND RUSSIA

PETROGRAD, May 14.—via London, May 15, 6 A. M.—The Council of Soldiers' and Workmen's Deputies has issued an appeal to the army in which it declares that German imperialism is seeking to destroy revolutionary Russia and enslave the Russian people. It appeals to the soldiers to defend Russia with all their power and declares that a separate peace is impossible.

The appeal says that the only solution of the war must be a general peace among all nations by common agreement. It asserts that the council is aiming at peace by calling for a revolution among the workmen and peasants of Germany and Austria-Hungary but that peace cannot be achieved unless the enemy at the front is checked. The manifesto includes with begging the soldiers not to renounce their offensive and warns against fraternizing with the enemy, which it says cannot end the war.

GOVERNMENT TAKES OVER IMPROVEMENTS

NEW YORK, May 14.—Work on the improvements to the docks of the Hamburg-American and North German Lloyd steamship lines at Hoboken, N. J., which have been taken over by the government, was expected to begin today under the supervision of Colonel John M. Carson, quartermaster in New York and superintendent of army transport service in the port.

This is in furtherance of a plan to attain the greatest possible efficiency in the movement of military supplies to Europe.

RUSSIAN MINISTER FEARS DISASTER

PETROGRAD, Sunday, May 13.—via London, May 15.—Delayed—In an impassioned appeal to delegates from the front at a meeting in Petrograd today, A. I. Kerenky, minister of justice, made the most alarming diagnosis of Russia's internal crisis that has come from any army official since the revolution. The minister of justice who heretofore had made only the most optimistic declarations, confessed that his confidence had left him and that he feared disaster.

MARRIED IN DECATUR.

SOCIAL EVENTS

The Markham G. T. S. Club

At a recent meeting of the Markham G. T. S. club, which was held at the pleasant home of Mrs. R. H. Blimling, an election of new officers were elected for the ensuing year as follows:

President—Mrs. M. L. Watt.
Vice president—Miss Ethel Thomason.

Secretary—Miss Norma Perbix.
Asst. sec'y. and treas.—Miss Margaret Wolfe.

Report—Mrs. R. R. Long.
After the business meeting, delicious refreshments were served by the hostess in the course of a delightful social hour. Those present were Mesdames M. L. Watt, R. H. Blimling, and Douglas Hunt, and the Misses Myrtle Paschall, Henrietta Clark, Ethel Thomason and Margaret Wolfe.

Entertained at Dinner.

Mr. and Mrs. J. H. Cain, south of the city, entertained a company of friends Sunday in honor of Mr. and Mrs. A. J. Rakers and daughters, Dolores and Helen, of Quincy. An elaborate four course dinner was served and the afternoon hours were spent most enjoyably.

S. S. Class Entertained.

The members of Harry Walker's Sunday school class at Central Christian church had a very enjoyable meeting Monday evening at the home of Harland Moss, 501 North Fayette street. The hours were spent with music and games and prizes were won by Harry Walker and Gene Darr. Delicious refreshments were served.

Mrs. Mullen Hostess For Bridal Party.

Mrs. Ellen Mullen, 239 Prospect street, entertained at dinner Monday evening. The guests included Miss Alma Groves and J. W. Mullen, who will be married today, Miss Marie Rexroat and Frank Clancy, their attendants. The dinner was prettily appointed and well served and Mrs. Mullen proved herself a most charming hostess.

The wedding will be solemnized this morning at 7 o'clock at the Church of Our Savior, the Rev. F. F. Formax celebrating the mass. A wedding breakfast will be served afterwards at the home of the bride, 1301 Mound avenue, and later in the day the young people will leave for a brief wedding journey.

TURN FOOD PROBE TO JOBBING CONCERNS

CHICAGO, May 14.—Federal food investigators today turned their inquiry to a number of jobbing concerns which, according to the information given the government are making capital out of the food situation as backing for stock selling propositions.

The literature sent out by some of the concerns offers big profits on the stock which is offered for sale in some instances as high as -150 per cent. If such profits are being made on onions, table grapes, apples and other western products the government wants to know by what means in the food markets it is possible; and if they are not being made while the mails are being used to spread such information.

A number of the heads of the concerns have been summoned before the federal district attorney for questioning tomorrow morning.

REDENBAUGH CONFESSES TO TWO MURDERS

SAN FRANCISCO, Cal., May 14.—John Redenbaugh, alias Edward Hamilton confessed tonight to the murder of Mrs. Alice McQuillan Dunn of St. Paul, Minn., April 22 and the shooting of Policeman Connelly of Minneapolis, according to police authorities. According to the police Redenbaugh said the shooting of Mrs. Dunn was the result of a conspiracy. Redenbaugh was trailed here by St. Paul detectives and was arrested last Friday. It is stated that he implicated other persons in Mrs. Dunn's death and insisted that he was used as a tool.

The shooting of the policeman, he said, was due to the attempt of Connelly to halt him while he was driving an automobile in Minneapolis. He said that he believed that the officer was about to arrest him for his connection with the Dunn murder and that he fired in a panic.

PLACE SHIP IN COMMISSION

Washington, May 14.—The American Steamship DeKalb, former German auxiliary cruiser and commerce raider Prinz Eitel Friedrich, was placed in full commission in the American navy on May 12, the department announced today. The DeKalb will be the first of the German ships to be employed against the German government.

TO MEXICAN BORDER

Messrs. Andre & Andre have word that M. B. Hunt and C. T. Patton who recently enlisted in the U. S. army have been assigned to the 20th Cavalry and sent to Columbia, New Mexico, the city made memorable by the massacre perpetrated by Villa.

NORTH DAKOTA CROPS

Jesse Henry has returned from North Dakota, where he went to look after farming interests. Mr. Henry reports good indications for an excellent crop season this year.

CARNIVAL TO LOCKPORT.

Sunday morning the carnival which has been showing in Jacksonville for the previous week, left over the C. & A. for Lockport, Ill., near Joliet.

The Woman's club of the U. C. T. will meet Wednesday afternoon at 2:30 o'clock at the home of Mrs. Bernard Gause, 503 North Church street. Mrs. J. G. Strawn will assist the hostess.

WITH THE SICK

COACH HARMON LEAVES TODAY

Coach W. T. Harmon of Illinois college received orders Monday to report immediately at Ft. Sheridan for training. Mr. Harmon has arranged all his affairs and had expected to leave last night on the Wabash but was subpoenaed to appear before the grand jury in the case against Willis McDonald. Mr. Harmon expects to leave on the Alton 12:50 this afternoon and will arrive in Chicago about 8 o'clock this evening.

A PLEASANT REUNION.

Mr. and Mrs. C. H. Smith were delighted Sunday to have with them their three sons, Edwin of Chicago, Fairbank of Bradley Polytechnic Institute, Peoria, and Allen of this city. The three young men attended church and honored their parents and especially their mother on Mother's day. The stay of the first two could only be short but it was greatly enjoyed.

MAY DAY FESTIVAL AT WOMAN'S COLLEGE

"Fete of the Seasons" Declared the Most Successful Observance Ever Held at I. W. C.

The May festival of 1917 at Illinois Woman's college was in every way a success. For harmony and grace of movement and perfect "team work" displayed, no Woman's college May day of recent years has been its equal. Especially attractive were the brightly colored costumes. Each group had its individual color tone and the scene as a whole was a panorama of vari-colored motion. In the testimony of hundreds of spectators was the "Fete of the Seasons" declared to be the "prettiest May day celebration yet seen at I. W. C."

The queen of the May, Miss Anne Floreth, is a Jacksonville girl, the daughter of Mr. and Mrs. William Floreth and a graduate of Jacksonville high school. A feature of the day this year was the crowning of the queen by the young woman who held that honor on the May festival previous. When, therefore, the queen and her attendants with the long procession of heralds, flower girls and pages, had taken their place around the leaf-embowered throne, Miss Helen McGhee, the queen of 1915, saluted the newly chosen monarch and placed upon her head the golden crown. The queens were dressed in white. The royal attendants were attired in white with golden capes and were large sweet pea corsage bouquets. Misses Johanna Onken, Phyllis Wilkinson, Winifred Sale, Eleanor Sherrell, Dorothy Westphal, Mary McGhee, Zay Wright and Bernice Bowen sat near the queen upon the throne. Herald's stood on either hand and pages were nearby, and the little flower girls at the front of the stage added childish gaiety to the youth and beauty of the scene.

The Story of the Fete
With the winding of the May pole and the graceful May dance of the English Maidens was the pretty story of the season's life begun. The Spirit of Spring then came forth and gracefully did she express the abounding life of the awakened earth. Remarkably well was this part taken by Miss Frances Wilkinson, student of the college from St. Joseph, Mich. Following came the Dance of Violets and then was summer introduced by the Dance of Baisles and of beauteous butterflies. Warmth of color and the joy of care-free days were expressed in the national Italian dance, "The Tarantella." With perfect time did the Garland Dancers usher out the summer season.

Spryly and quickly then Jack Frost appeared and this part, taken by Miss Frances Seance of Sidell, was the wonderment of all, performed as it was with such art and agility. The Harvest Dance, but students in the grayish garb of Finland, ushered out the autumn season.

Miss Eleanor Warner of Lomb Beach, Cal., took with consummate skill the part of Spirit of Winter, and very lively did she do the steps as the music behind the scene played rapidly. The skaters, all dressed in black and red, gave their touch of cold weather merriment, and the fete was closed with the airy dance of swirling snowflakes.

Music of the Fete
For the great success of the undertaking much credit is due the work of the faculty advisers, Misses Frisbie, Coulas and Lazelle, and to the chairman of the committee, Miss Eleanor Sherrell of the sophomore class. During the periods of intermission music was furnished by the Glee club and members of which entered as attendants to the former queen. Mr. Jessen and Miss Hazel Claus furnished the piano accompaniment. The audience was one of the largest which had ever gathered to witness a May day festival, and the fact that ample seating capacity had been provided by the college management was a gratifying feature. During the interlude students garbed in May day costume sold refreshments to the visitors.

SIDE LIGHTS ON WAR BY WHITE HALL GIRL

Letter from Friend in France Speaks of Trench Warfare—Student Relief Work in Michigan.

Some interesting sidelights upon the great war as recorded by an eye witness are contained in a letter received by Mr. and Mrs. Arthur Shepard of White Hall. In a letter from Miss Winifred Shepard of Jackson, Mich., an account is sent of the impression of a young American who has for some time been with the French army. Miss Shepard is a teacher of botany, zoology and arithmetic in the Jackson high school, a position she has held for the past two years. She is a graduate of the class of 1909 of the White Hall high school and also of the University of Illinois. Her letter contains also some facts about relief work as carried on by the high school pupils.

Commenting upon the difference between this war and all which have gone before, the speaker says: "A soldier seldom sees the enemy. Down in the trenches fifteen feet from the surface there is no chance for direct observation. When the great guns begin to hammer the trenches the men are often covered with slime and mud. One may be praying, another laughing, another swearing and a fourth attempting to tell a funny story." Speaking of the overbearing manner of German officers, the account continues: "One soldier was shot in the back for pulling a young wounded French lad out of the firing line. Officers of the German ranks seem to feel themselves so far above their men."

The Part of Belgium.

"I never realized before how noble a part Belgium has played. France would have been taken without a struggle if it hadn't been for Belgium. Then it would have been much easier for Germany to have taken others. It took France ten days to mobilize and they received word that all those Germans were far into Belgium and would enter Paris in a few days. The men of Belgium with no hope of victory, held back the Germans until France was ready. As a result her country was ruined, her men dead, the women insane and many of the children idiots because of starvation. Now the women and children of France are just as poor. Why shouldn't we help them?"

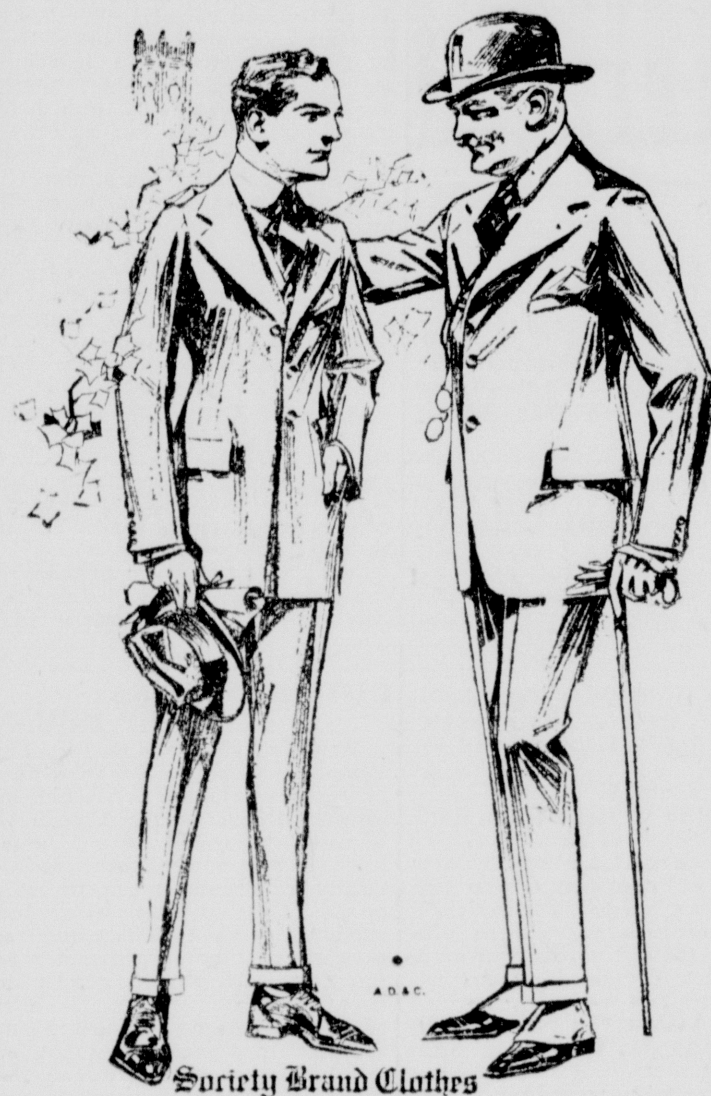

Students Do Relief Work.

Speaking of the need for service by raising of more stuffs the letter says: "The call is not altogether to arms but to raise food. Jackson has rented all the vacant lots and the city expects to see that vegetables are raised upon each, such as corn, potatoes, beans, peas and onions. It is said that Detroit expects to raise enough such vegetables to supply itself. The Jackson high school here has been organized into several committees, one on gardening, one on agriculture, a third on funds, a fourth on the relief of French and Belgium children and another for

MOTHER'S DAY OBSERVED BY THE CLIO CIRCLE

Literberry Society Carries Out Appropriate Program at Home of the President, Miss Lora Petefish.

Very appropriate was the program rendered at the recent meeting of the Clio Circle of Literberry Christian church, when "Mother's Day" was called to mind in befitting manner. Miss Lora Petefish, the president, and Mrs. Aaron Petefish, Jr., entertained the circle at the home of the former and the program which was enjoyed by fifty guests was followed by a social hour and the serving of refreshments. Up a arrival each guest received a carnation, red if the mother were living and white if she had passed beyond.

The afternoon program: Scripture—Mrs. William Hall. Prayer—Mrs. Claude Petefish. Vocal duet, "That Little Gray Mother"—Miss Annabel Crum and Mrs. E. A. Litor.
Reading, "A Mother's Meditation"—Mrs. W. W. Young.
Paper, "A Mother's Status in the Christian Lands"—Mrs. Harry Martin.

Reading, "The Holy Grail of Gladness"—Mrs. J. W. Young.
Poem, "Mother of Mine"—Miss Grace Myers.
Roll call—A tribute to motherhood.
Piano solo—Mrs. O. L. Crum.
Before the program was given Miss Petefish, the president, welcomed the guests and told of the purpose and significance of the day.

HIGH SCHOOL STUDENTS

Several students of the high school have been excused for the remainder of the year and will spend the summer on the farm. Among them are Homer Reynolds, Howard Reynolds, Arthur King, Arthur Green, Paul Walker and Harold Dunlap.

STATE-WIDE LIBRARY CONTEST ANNOUNCED

Cash Prize of Twenty Five Dollars Will be Given for the Best List of Doctors and Surgeons in Fiction.

Twenty five dollars in gold will be given by the Illinois State Library association for the best list of doctors and surgeons in fiction, according to announcement made in the current number of "Public Librarian." Miss Lydia M. Barrett of the Jacksonville library is chairman of the publicity committee for the state association, and calls attention to the fact for the benefit of local people who may wish to compete, that the prize is offered for the best rather than for the longest list. A program has been arranged at the Jacksonville library containing some of the books wherein doctors and surgeons of fiction may be found.

Following, in brief, are the conditions of the contest:
"Make a list of stories in which doctors appear as characters. Arrange the list alphabetically by the author of the book."
"Write a brief note about each doctor who appears in a book. These notes are not to exceed 100 words each. Put the note or notes, if there is more than one doctor in a book, under the author and title entry for each book in the list. The value of these notes as well as the length of the list will be considered in making decision as to prize."

The public library is the place to get material for this contest which closes September first.
Uses of the Library.
The uses to which the public library is put and should be put are varied. Saturday a request for authoritative material on Concord grapes came into the library at the same time that there was a call for a list of the famous art galleries of Europe. Before these questions were disposed of the telephone rang to know whether there was a book in the library on lantern slide making. These every day questions that people wish to have answered are the most important part of the work of the public library; but in addition to being a storehouse of information the library is a recreation center as well.

The persons who think over what they read get the most pleasure from their reading. This contest gives opportunity during the summer for any clever reader to discriminate between Dr. X and Dr. Y and Dr. Z in Irwin Cobb's "Speaking of Doctors." The notes about the doctors in fiction are worth thinking over and discussing. In William De Morgan's books, in Trollope's novels, in one of Dickens and S. Weir Mitchell there are good examples which come to mind after a little thought.

MRS. MARGARET RICKS OBSERVES 91ST BIRTHDAY

Born in Bavaria, Mrs. Ricks Came to America in 1841—Has Lived in Jacksonville Third of Century

In far away Bavaria, May 8, 1826 in the home of Peter and Catharine Hahn came a little daughter, whom they named Margaret. The parents were honest farmers, well to do in the goods of this world and blessed with health and strength. However in 1841 the father and mother decided they could do better in the new world and with their family set out for it landing in New Orleans and proceeding thence to St. Louis where they remained three months and then took possession of a farm near Manchester.

A year later the mother died leaving a family of children, the youngest three months old. There were four boys, Adam, George, John and Abe. Three girls, Barbara, afterward Mrs. Locke, now living in Lane, Kansas;

Mrs. Margaret Ricks.

Catharine, afterward Mrs. Krodell, and Margaret. Two children died young. All are now dead except the two sisters mentioned.

Margaret was married in Springfield March 6, 1852 to Henry Ricks and remained there till 1884 when the family moved to this place locating on East Court street and later moved to North East street. The father had died in 1889.

Mrs. Ricks' children were Henry, formerly an alderman of the city and now dead; Mary, Mrs. Fred Batz; John W. of the light department; Carrie, deceased; Catharine, Mrs. Henry Klotz, living at the southwest corner of North East street and East Independence avenue. George and Herman died young.

While in Springfield Mrs. Ricks was a consistent member of the Third Presbyterian church of that place and never removed her membership there since coming to Jacksonville she has been a regular attendant at the Christian church as long as health permitted.

In February, 1915, she had a severe attack of pneumonia which left her helpless as far as getting about is concerned and she has since been obliged to keep to her bed tho she is cheerful and happy. For 22 years she has been tenderly cared for by her dutiful daughter, Mrs. Klotz, and tho the latter was left a widow six years ago she continues her devotion to her aged parent and the two live happily together. Tho bedridden Mrs. Ricks looks quite well and is cheerful and happy.

There was no especial celebration tho the three daughters spent the day by the mother's bedside and enjoyed the hours with their aged parent.

LEAVES FOR DALLAS, TEXAS

El. M. Vasconcellos expects to leave for Dallas, Texas, this morning. He goes as a Commissioner to the General Assembly of the Presbyterian church in the United States of America, which meets at the Northern branch of that church. Mr. Vasconcellos will go first to St. Louis, and there join other co-presbyters of this Springfield Presbytery, and they will journey together till about noon of Wednesday, when the Texas metropolis will be reached.

The assembly convenes on Thursday, and will remain in session until about the 25th of May. It is a gathering of national interest and importance, representative over a million communicants, and taking action upon the use of millions of dollars contributed to the home and missionary work of the great church.

FIRE SUNDAY AFTERNOON

The fire department was called to the residence of John Troy, 912 West Railroad street Sunday afternoon at 3 o'clock. Fire had started in the roof by sparks from a chimney. The damage was small, the flames being extinguished before gaining much headway.

FRANK MALLORY FUNERAL ATTENDED BY MANY

Services Held at Mt. Emory Church in Charge of Rev. E. L. Scruggs—Many From Out of Town Present.

Funeral services for Frank Mallory were held from Mt. Emory Baptist church Sunday afternoon at 3 o'clock in charge of the pastor the Rev. E. L. Scruggs.

The funeral was one of the most largely attended ever held in the city. The church was completely filled and several hundred stood outside during the services unable to gain admittance. It was truly a splendid tribute to the deceased as a man and a citizen.

Frank Mallory had received many tributes for his work before the public. It was fitting that he had so lived that his going brought forth the expressions of love and respect on Sunday.

Hymns were sung by the choir of the church. At the services resolutions adopted by the Brotherhood of Mt. Emory church of which Mr. Mallory was president, were read by E. D. Hayden. Dr. Allen Wesley of Chicago grand chancellor of the Knights of Pythias was present at the services. He read resolutions from Pythian Lodge No. 2 of Chicago of which Mr. Mallory was a member. He also had charge of the services at the grave.

A large number from out of town were present at the services among them were: Mr. and Mrs. Thomas Stanford of Peoria; Mrs. Jane Mason of Godfrey; Rev. G. C. Mason of Alton; William Mallory of Kansas City; Mrs. Martha Kirklin, Mrs. Alice Williams, Columbia, Mo.; Mrs. Mebal Franklin, Chicago; Mr. and Mrs. Albert Crawford, Decatur; Dr. Allen Wesley of Chicago; Mr. and Mrs. John Smith, of Monmouth; Theodore and Charles Duncan, Louisiana, Mo.; Charles and Claude Burghardt and father of Greenfield; Mrs. Eva Monroe of Springfield; Mr. Douglas of Louisiana, Mo.; Robert W. Leary of Chicago; Mrs. Lottie Pierson of Carrollton; George Board of Springfield.

The Rev. Mr. Scruggs delivered an eloquent eulogy to the memory of the deceased, taking his text from Philippians, 1:23-24. He said in part:

"For I am in a strait betwixt two, having a desire to depart, and to be with Christ, which is far better: Nevertheless to abide in the flesh is more needful for you." Standing on the battle field of Philippi, gazing upon the lifeless body of Brutus, Mark Anthony uttered these words:

"His life was gentle, and the elements so mixed in him, That nature might stand up And say to all the world, This was a man."

These words strikingly characterize the life of him whom we come this afternoon to honor—Frank Mallory was a man in all that that term implies. In its length and breadth, in its height and depth, the life of this friend and brother exemplified those cardinal virtues which mark truly great men.

"As we study and endeavor to analyze his character we find that his life conformed to the highest ideals. He was a man of integrity, scrupulous in his every act, always considerate of the rights of others. Honesty with him became a habit. He was courteous and princely in his bearing and winsome in his manners. He was untiring in his efforts to be of service to others, and the needy found in him a sympathetic friend and helper."

"His home life was ideal. His hospitality knew no bounds. The graciousness of his ministries became the joy of those who were privileged to be the recipients."

"As a citizen Mr. Mallory stood high in the community. In business he was enterprising."

"He had civic pride and was ever ready to do his part in advancing the interests of the city."

"In his Christian life Brother Mallory was consistent. His service in the church was self-giving. He was interested in every department of the church's work and gave unstintingly of his time, talent and money to bring to the highest degree of efficiency the various auxiliaries. He loved Christ and thought no sacrifice too great for His cause. He had faith in mankind and was ever ready to see some good in every life however obscure that life might be."

"From the Brotherhood of the church of which he was the president an able leader he will be sorely missed. As the moving spirit in every department of the church's work and gave unstintingly of his time, talent and money to bring to the highest degree of efficiency the various auxiliaries. He loved Christ and thought no sacrifice too great for His cause. He had faith in mankind and was ever ready to see some good in every life however obscure that life might be."

"With bowed heads and sad hearts we come to pay the last tribute of respect to this brother beloved. We shall gather courage from his victorious life; we shall catch gleams of the possible in human endeavor, and shall follow in his course that our earthly star shall not be like an evening star sinking into the darkness of night, but rather as the morning star, lost to human sight by the dawn, increasing brightness and splendor of the eternal day."

ARE WOMEN NATURALLY DESPONDENT?

While there are women who seem always despondent and depressed and expecting misfortune, that is not woman's natural condition. Such unfortunate suffer from ill-health. An abnormal condition of the system expresses itself in nervousness, sleeplessness, backaches, headaches and despondency.

If all ailing women would make faithful use of that grand remedy for woman's ills, Lydia E. Pinkham's Vegetable Compound, there would be little occasion to ask if despondency is natural to woman.—Adv.

Miss Sadie Lynch of Chapin was among the callers in the city yesterday.

MANUFACTURERS IN SESSION

New York, May 14—The consideration of industrial problems arising from the war promises to make the annual meeting of the National Association of Manufacturers, which got under way at the Waldorf-Astoria in this city today, the most important meeting in the twenty-two years' history of that organization. The interest and importance attached to the meeting is evidenced by an unusually large and representative attendance. During the three days that the sessions will continue the association will discuss the labor problem, special taxation, the difficulties of transportation, the high prices of material and a wide variety of other questions relating to the war situation. Many eminent leaders of industry and public officials are scheduled to address the gathering.

E. Winklemeyer of Peoria was a business visitor in the city Monday.

5,000,000 Corns

Lifted Right Off!

Try 2 Drops of Magic "Gets-It"

There's a wonderful difference be-
tween getting rid of a corn now and
the way they used to try to get rid
of it only four or five years ago.
"Gets-It" has revolutionized corn
history. It's the only corn remedy

"See? Just 2 Drops of 'Gets-It' Now
Tomorrow You'll Just Feel That Corn
Right Off—and It's Gone!"

today that acts on the new prin-
ciple, not only of relieving the corn
but of loosening the corn off
so loose that you can lift it right
off with your fingers. Put 2 drops of
"Gets-It" on that corn, or callus co-
night. That's all. The corn is
doomed sure as sunrise. No pain,
or trouble, or soreness. You do
away once and for all with toe-
bundling bandages, toe-eating salves
and irresponsible what-nots. Try
it—get surprised and lose a corn.
"Gets-It" is sold everywhere, 25c

What to Do for Eczema

Greasy salves and ointments should
not be applied if good clear skin is
wanted. From any druggist for 25c or
\$1.00 for extra large size, get a bottle
of Zemo. When applied as directed, it
effectively removes eczema, quickly
stops itching, and heals skin troubles
also sores, burns, wounds and chins.
It penetrates, cleanses and soothes.
Zemo is a clean, dependable and in-
expensive, penetrating, antiseptic liquid.
Try it, as we believe nothing you have
ever used is as effective and satisfying.

MAY TERM OF COURT OPENED BY JUDGE JONES

Many Cases Entered in Chancery—
No Excuses from Service Granted Grand Jurors.

Judge Norman L. Jones opened the May term of the circuit court Monday morning. Judge Jones spent a busy day and many orders were entered, all of them in chancery cases. The grand jury was sworn in and given instructions by the court as to their duties. A remarkable thing is that not one of the grand jury members was excused. Judge Jones did not ask any of them if they wished to be excused. They were sworn in and then it was too late. The grand jury organized by electing Charles S. Black, foreman and J. H. Fuller of Murrayville clerk.

The grand jurors are:

Which
will
you
have?

You
must
decide
NOW!

YOUR grandfather's writing materials were a quill from a goose feather and a horn of ink. YOU CARRY IN YOUR POCKET A MODERN FOUNTAIN PEN, INSTANTLY READY TO WRITE.

Your grandfather, when he went hunting, took along his heavy, flint-lock fowling piece. YOU CARRY A LIGHT, HAMMERLESS, REPEATING SHOTGUN THAT IS IMMEDIATELY READY FOR ONE SHOT OR A DOZEN.

Your grandfather's lantern was a bulky tin affair in which a candle dimly burned. YOU USE AN INSTANTANEOUS, BRILLIANT ELECTRIC FLASH-LIGHT THAT YOU CAN CARRY HANDILY IN YOUR POCKET.

The Encyclopaedia Britannica, printed on old-fashioned thick paper, makes a set of heavy, cumbersome, bulky books, one volume of which weighs eight pounds and requires a table to hold it while being read. The "HANDY VOLUME" ISSUE OF THE NEW ENCYCLOPAEDIA BRITANNICA, PRINTED ON THIN, GENUINE INDIA PAPER, EACH VOLUME WEIGHING 23 OUNCES, IS THE UP-TO-DATE, QUICK-ACTION, INSTANTLY AVAILABLE, INVITINGLY USABLE WAY OF OWNING THE GREATEST LIBRARY OF FACTS EVER PUT INTO TYPE.

Here are the same differences that exist between the modern, always-ready fountain pen and the old-fashioned ink horn and quill; between the modern, ready-to-use shotgun and the old-fashioned fowling piece; between the instantly ready, brilliant flash-light and the clumsy candle lantern.

You can buy the new Britannica printed on thick paper, in big type, large page, get-your-table-ready-to-hold-it volumes now or at any time. It will be obtainable in this form for years. There is no hurry.

But—if you want to own a set of the Encyclopaedia Britannica in the popular "Handy Volume" form, printed on genuine India paper—you must decide NOW—for unless you buy NOW you can NEVER buy it.

It is NOW—or NEVER because Saturday, May 26th (possibly a day or two before), will see the sale of the last remaining set of the India paper "Handy Volume" Britannica—and May 26th is only 11 days off.

When the last set is sold you NEVER can buy it in this form again. You can buy it NOW if you act NOW. This means just one thing—go TODAY to the store named below and see the Britannica—not a volume or two, but the entire set. Look it over thoroughly. Learn the prices of the different bindings. Go NOW while there is a choice of bindings. Learn the terms of our "You-use-the-books-while-you-pay-for-them" plan. Make up your mind whether or not the Britannica will be useful and helpful—THEN ORDER

Do not put this off even twenty-four hours. Every order we receive increases the possibility that the remaining sets will all be sold before Saturday the 26th. Therefore—you must decide to NEVER buy OR to buy NOW!

If you cannot go to this store but feel the value and the need to yourself and family of owning the Britannica, sign and mail this "Reserve" Order Form NOW.

Sets can be seen and orders left at:

PASSES AWAY AT NEOGA

Death of Mrs. Mary Smith Kinney Leaves Surviving in Illinois But Three Original Members—Was Born in This City

A despatch from Neoga, Ill., tells of the death of Mrs. Mary Jane Smith Kinney, aged eighty-two, one of the original members of the Daughters of the American Revolution.

Mrs. Kinney's death reduces the number in Illinois to three.

Mrs. Kinney was born in this city Feb. 15, 1835. Her father, Elijah Smith, enlisted in the Revolutionary war for six different periods of two or three months each, from 1776 to 1781, laboring for the support of his family during the other periods.

He was born in Hunterdon county, New Jersey, Aug. 13, 1755. In 1780 he was married to Elizabeth Litton and four children were born to them. Later he married Lucretia Jones, a young woman many years his junior. Three children were born to them and while the youngest was a mere baby the old soldier died in this city, the date being March 11, 1835.

It was thru the second marriage that W. L. Fay and some other residents of this city establish lineage leading back to Revolutionary days.

Mrs. Kinney was ever an enthusiastic member of the D. A. R. and certainly the records show that her father performed a loyal service for his country in its early days.

EXTRA SESSION IN
WEST VIRGINIA

Charleston, W. Va., May 14.—Pursuant to the call of Governor Cornwell the legislature of West Virginia assembled today in extraordinary session. The purposes of the session, as set forth in the call, will be to consider war measures, questions arising from the Virginia debt suit, legalizing the transfer of more than 200 acres of land in this city to the Federal Government for an armor plate plant, and the passage of appropriation bills that failed thru deadlock in the regular session and the recent special session.

DEBATE PAVING OF SOUTH MAUVAISTERRE

COUNCIL WILL DECIDE MATTER
AFTER FURTHER INVESTIGATION

North Side Wells Now Being Tested
—Paving Plans Progressing—
Many Miles of New Side Walk in
Order—Other Council Procedure.

Little aside from routine business was transacted at the regular session of the city council Monday morning.

There was considerable discussion as to the paving of South Mauvaisterre street. Engineer Henderson has already surveyed the work and the council decided to investigate the matter and make a decision within a few days.

The council met in regular session Monday morning at 10 o'clock all members present, Mayor Rodgers presiding, R. L. Pyatt, clerk.

The minutes of the last regular meeting were read and approved as read. Some discussion was had as to the motion relative to the soldiers' monument in Central park. It was the sense of the council that the monument Association was to move the monolith to any point designated by the city.

Commissioner Vasconcellos reported that the making of tests at the north side wells was commenced Sunday and that the wells probably would be shut down for a week.

Commissioner Vasconcellos said that readings were being made at the Q well also and that it was found that the north end supply had an effect on that well. The commissioner also said that he would like to have the engineer's survey of the land between the Burlington tracks and the north fork of Mauvaisterre creek.

Commissioner Martin reported that the large tank on the chemical wagon had started to leak and on account of the high pressure required it was dangerous to use it. The commissioner stated that the tank had been taken to Kellogg Brothers but that they could not fix it and it probably would have to go to the factory for repairs or examination and if it could not be repaired then a new one would have to be purchased.

Mayor Rodgers suggested that it be taken to the C. P. & St. L. shops and a new jacket made for the outside. It was decided to see if the necessary repairs could be made at the shops.

Mayor Rodgers under the head of public affairs reported the paving plans are progressing satisfactorily and assuming definite shape.

Commissioner Cox reported general clearing of trees by his department. He also said that cinders were being hauled and ditches made in preparation for the summer.

Commissioner Cox also said he had taken up with Mr. Cook the matter of repairing the walk at the corner of East State street and the square adjacent to Herman's millinery store. He had been unable to get much satisfaction in the matter. It was the sense of the council that an ordinance covering the matter be drawn and make the improvement compulsory.

Mayor Rodgers reported that Mr. Hoffman had said he would begin the building of sidewalks in East State street within a few days.

Ordinances for sidewalks on both sides of East College street, both sides of Hardin avenue, both sides of Allen avenue, both sides of East North street and both sides of Ashland avenue were given a second reading and adopted.

Mayor Rodgers then called the attention of the council to the need of sidewalks on Anna street from South Main to South Diamond street, on Richards street, north side, from South Main to South West street, and on both sides of West State street. Ordinances for these will be prepared at an early date.

The question of paving South Mauvaisterre street was then discussed. The engineer said he had run the levels for the street and could soon get specifications prepared.

Commissioner Widmayer doubted the wisdom of paving the street at this time. He said that most of the property owners on South Main street were going to be hit hard with the paving on that street and that to follow it with South Mauvaisterre street would give them a double dose.

There being no further business the council on motion adjourned.

Keep Cool Cooking on Warm Summer Mornings

Turn to the bright little, light little stove with the long blue chimney. Tuck a match to the wick. Put the coffee on. Get out the griddle and have breakfast ready in twenty minutes. Yourself as cool and fresh as when you came to the kitchen. Breakfast over and dishes done you turn down the wick and the fire is out. The morning is yours. No black pots to clean and to cumber your hands. No wood or coal, or ashes to think about. No fire to die out and every atom of fuel is used for heat when you want to use it.

Cold Settled In His Back

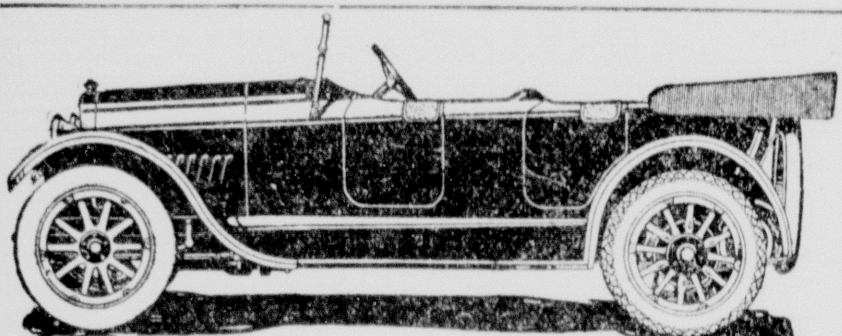

"Foley Kidney Pills always give me prompt relief."—Ed Velton, Rogers, Neb.
Ed Velton, of Rogers, N. B., writes: "I have used Foley Kidney Pills for backache, the result of catching cold which settled in my back. Foley Kidney Pills always give me prompt relief and I can cheerfully recommend them."
The reason Foley Kidney Pills act so satisfactorily is because they neutralize and dissolve the poisonous waste matter that remains in the blood because the kidneys do not do their work properly in filtering and casting out from the system uric acid and other poisons.
Relief usually follows in a few days and such symptoms as pain in the sides or back, stiff joints, sore muscles, rheumatism, too frequent action of the bladder at night, and other painful and annoying ailments disappear. Foley Kidney Pills contain no harmful ingredients. They are safe as well as quick acting.

MUNICIPAL ELECTION

IN DENVER
Denver, Colo., May 14.—Several proposals for important amendments to the city charter are to be decided by the voters at the municipal election tomorrow. A city auditor and nine councilmen also are to be chosen under the nonpartisan plan. The campaign which closed today has been one of the most spirited that the city has experienced in some years.

Edward Cole and family of the east part of the county made a trip to the city in their Ford car yesterday.

WOMEN! IT'S MAGIC! CORNS SHRIVEL AND LIFT OUT—NO PAIN!

For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops upon a tender, aching corn and instantly, yes immediately, all soreness disappears and shortly you will find the corn so loose that you lift it out, root and all, with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.
Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet just seem to shrivel up and fall off without hurting a particle. It is almost magical. It is a compound made from other says a well known druggist here and the genuine has a yellow label. Adv.

FACTS ABOUT RUSSIA.

And now the sleeping giant has been awakened. The scales have fallen from his eyes. Bonds that have held a nation abject for centuries have been broken. The Russian people are freed, and henceforth the people's understanding will go about their duties as men free-born and not as slaves and serfs.

The glory of Russia is in her future. The great tasks are yet to be performed. However, the most difficult one, that of making a beginning has been successfully achieved. This great empire and its people who have played too inconspicuous and too silent a part in the affairs of the world will now be seen and heard.

The Russian Empire stretches over a vast territory in Eastern Europe, and Northern Asia, with an area exceeding 8,500,000 square miles—one-sixth of the land surface of the earth and nearly three times the area of the United States. The total length of the frontier line by land is 2,800 miles in Europe and 10,000 miles in Asia, and by sea 11,000 miles in Europe and between 19,000 and 20,000 in Asia.

Within these vast boundaries there is a population of over 170,000,000, about 75 per cent. of which according to the Encyclopedia Britannica, are peasants. The rich soil of Russia is very capable of producing the grain supply of the world. Eighty-five per cent. of the population are engaged in agriculture, yet the methods employed have been so primitive that only a bare living has been realized. The soil is also rich in ores of all kinds, but due to the tardy introduction of machinery and science these have merely begun to be developed. In European Russia, great forests cover 39 per cent. of the area, and in Asiatic Russia two-thirds of the area is covered by forests. These vast resources, in magnitude and variety equalled by no other nation, are scarcely touched, nor are they fully conceived of by the mass of the Russian people.

The percentage of illiteracy in Russia is very large, ranging above 85 per cent. in some provinces. In Petrograd, the capital itself, half the population cannot read or write. The urban population is generally better educated. Including the whole empire considerably more than half the people are illiterate, the educational movements have made remarkable headway in Russia during the past few years.

There are no trustworthy figures as to the number of adherents of the different creeds, however according to the census returns published in 1905 the eight leading creeds are given as follows:

Orthodox Greek and United church	87,123,604
Mohammedans	13,906,972
Roman Catholic	11,467,954
Jews	5,215,805
Lutheran	3,572,653
Dissidents	2,204,596
Armenian Gregorians	1,179,241
Buddhist	433,863

There are numerous other creeds with fewer adherents. As these data indicate there are many nationalities in Russia. This diversity of nationalities is due to the amalgamation or absorption by the Slav of a variety of Ural-Altaic Stock. In European Russia the Slavs are in a ratio to the other races combined of about three to one. However in the other parts of the empire the

Slavs are often outnumbered. This heterogeneity of the Russian people, coupled with the great amount of illiteracy has been one of the plausible excuses for justifying the heavy-handed rule of the Russian Czars.

The Russian people have been slow, none the less surely, discovering themselves. The increased liberalism of Nicholas II. toward the people, the modern improvement in education, the Russo-Japanese War, and Russia's experience in the present war—all these have been revelations for the Russians; they have felt their strength, which is the first condition of realizing it.

The Almanach de Gotha for 1910 describes the Russian government as "a constitutional monarchy under an autocratic Czar." But the Encyclopedia Britannica, article Russia, says that "this obvious contradiction in terms well illustrates the difficulty of defining in a single formula the system essentially transitional and menawhile sui generis, established in Russia since 1905. Before this date, the fundamental laws of Russia described the power of the emperor as autocratic and unlimited." In the fundamental laws, as remodelled between the imperial manifesto of October 30 and the opening of the first Duma on the 27th of April, 1906, the name and principle of autocracy was jealously preserved, the word "unlimited" vanished.

And now the people have arisen to break the principle of autocracy itself, which from age could not easily bend. Again a government based upon the consent of the governed is to rise from the people themselves and for themselves.

George A. Roy of Kansas City was a visitor yesterday with his Jacksonville friend, James G. Strawn.

International Corn Planters Have a Habit of Pleasing

If your neighbor owns an International corn planter, you don't have to be told that he is satisfied. You know it, and we know it. The International corn planter satisfies because it is simple and because it plants corn the way you want it planted. A strong feature is the adjustable runner frame, keeping the runners even and the hoppers level, no matter what the height or speed of your team. This means accurate dropping and even checking instead of zig zag. It is a very convenient planter under all conditions.

The International is the corn planter that deserves to be looked over by every farmer who wants to get the most out of his cornfields. It wastes neither seed nor ground, it handles easily, and it lasts as long as any farmer could ask.

Come in the first time it is convenient and study an International planter. Made in five styles—own the style that suits you.
